Subject: Black Tank Amended cleanup
Date: Monday, June 11, 2018 1:26:24 PM

Jeremy,

Thank you for the opportunity to comment on the interim cleanup at the Black Tank site. The Lands Council supports the amended plan (Amended Order 1 to Agreed Order 9188) to begin immediate cleanup of up to 15 feet of contaminated soil in five locations at the Black Tank site. This seems to be the best option to work with the Department of Transportation as the North South Corridor construction proceeds.

We would like to continue to be kept informed and be notified when the Agency Review Draft Interim Action Completion Report (IACR) is completed.

Sincerely,

Mike Petersen, Executive Director
The Lands Council
