Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

B Hyland

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Wake up America, COAL will be dead in less than 30 years. Why expend all that CAPEX on a system that will be abandoned in just a few years and would need demolishing by Millennium Bulk Terminals Inc and who will end up paying for this? Use the funds to create CLEAN ENERGY projects and not cause POLLUTION getting DIRTY COAL to a terminal from wherever? "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." Will the Water and Air pollution ever recover fully? The Indigenous Native Tribes will have their water sources no doubt contaminated from supporting industries in and around the area. Rivers and Streams where Salmon and other species breed will be damaged. So, do not even consider wasting your investors' money for such a short life cycle of investment. Do the right thing and invest in Alternative Energy, which Folks will agree too and your children and grandchildren will thank you for not damaging their future environment and for other generations to come.

Sincerely,

Geoff Daly

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Constance Hyde

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Please bear in mind that the market for coal in Asia will have peaked in the next twenty years. After that there will not be much money to pay for environmental damage from this project. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

William W Bruml

Cleveland, OH 44118

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife, and Native people and exacerbate runaway climate change--to the detriment of all life on our one-and-only planet Earth. It is far past time to start leaving the oil and coal in the ground, instead using our American know-how to develop clean, green, renewable energy sources. For the sake of all living things, you must reject Millennium's application for Section 401 Water Quality Certification.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

As the rest of the world moves towards the promises enacted by the Paris Climate Accord, the use of coal is going to decrease globally. It does not seem like a long-term fiscally sound decision to create a large amount of infrastructure for coal exports. Additionally, Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Leigh Stimolo

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

BE ON THE RIGHT SIDE OF HISTORY. Coal does not protect or secure our nation for future generation. It actually harms it. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Dorian Bergen

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Mining coal doesn't just affect the areas that it is mined, it affects the global population and climate conditions. Coal that is mined is eventually burned, and the pollution from that burning affects people worldwide, including Americans. Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification. It's time to get over coal and get on with clean energy. Thank you for listening.

Sincerely,

Christian Klehm

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Charles Luce

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

As Americans, we need to limit carbon emissions, not increase them. The proposed Millennium Bulk Terminals project will move our country in the wrong direction, threatening national security, public health, and access to clean water. I urge you to reject Millennium Bulk Terminal's permit application. This project will harm the public good . Judy Gelman Myers

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Gail Noyer

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Nick Garbidakis

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Coal is an industry that still wants to take more humans into its obvious death spiral. Why the heck would we back that? According to WA State's own environmental study, effects on human and fish populations would be enormous. It's time to move from dirty coal to a clean energy economy.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Remember that there are more ways than one for the economy to prosper and I hope you will begin to shift from old, dead end industries of the past to the new renewable-powered economy of the future. Also, there is no reason our environment and public health should be sacrificed to power China, which only increases its security threat. Keep our coal in the ground and out of China's hands. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Mary Rogers

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Robin Lee Byers-Pierce

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Katrin McManis

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

As someone who lives in north west Montana I am vigorously opposed to these terminals. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Christine Ellis

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Robert H Williams

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

It absolutely blows my mind that American greed is actually putting us in this position where we are taking such a huge step backwards to tearing up the earth for coal as an energy resource, when we have sustainable energy methods that are proven to yield enough power and do so safely; without footprints. We need to get off coal and oil and start acting like a world that wants to move into the future with respect and dignity for the planet we inhabit. The more we damage the planet, we destroy our chances of surviving when the earth does fight back and extinguish us. The Earth will be here for a very long time... with or without us. Wind and Water technology... not coal.

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. Re: Millennium Bulk Terminals Longview - Coal Export Terminal

With all due respect to those whose livelihood comes from the coal industry, hasn't that ship sailed? Rather than digging in to OLD technology which is dirty, inefficient, and non renewable, why not shift the focus to renewable energy sources. Washington state should LEAD the nation in the economic advantages of renewables and take this opportunity to show the world what you stand for. The terminal will do more harm to; local communities, wildlife and Native people, and exacerbate climate change, than any short term, economic good. Please reject Millennium's application for Section 401 Water Quality Certification, and be on the right side of history.

Sincerely,

D Roz

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Phillip Heiman

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Coal is best left in the ground, for every step that follows digging it out degrades the environment. Trading health and wellness for a replaceable fuel source is unacceptable accounting. Coal hurts the environment. Coal hurts health. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. Re: Millennium Bulk Terminals Longview - Coal Export Terminal

COAL IS NOT THE ANSWER FOR THE US. NOR IS IT THE ANSWER FOR OTHER COUNTRIES. IT KILLS IN THE GROUND AND IN THE AIR. THE TERMINAL IS A TERRIBLE MISTAKE. THAT MONEY IS BEST USED TO RETRAIN COAL MINERS IN SUSTAINABLE ENERGY JOBS. IT WILL HELP THEIR STATES AND THEIR PEOPLE. IT WILL SAVE LIVES. WAKE UP! "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

To the Washington Dept. of Ecology - What a short-sighted use of money to create a massive coal export terminal when the rest of the world - i.e. countries working toward a low or no-carbon future - are moving away from coal. What is the expected lifespan of this investment? Does it take into account the dwindling exports of coal over the next 25 years? Just because we have lots of supply does not mean we will necessarily find buyers for this high-carbon fuel that is a known contributor to climate change. The Millennium Bulk Terminal supports the short-term profits of the coal industry and subsidizing it with taxpayer-funded infrastructure. Meanwhile in addition to the subsidy, we pay in diminished air and water quality. Cost-benefit ? This project is not worth funding.

Sincerely,

Marika Dixon

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Reject Millennium's application for Section 401 Water Quality Certification for their Bulk Terminal. It would harm not only air, soil and water quality in Washington state and hence human health, but will also create huge negative impacts in Wyoming and Montana as coal mining increases. The costs to deal with the pollution and health impacts will far outweigh the benefit to the few in the coal industry. Coal burned in Asia will then result in more mercury pollution carried back to the US and deposited on our soils, in our waterways and hence up our aquatic food chains. Please consider what is best for this country and the majority of our people.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Robert F Marcotte II

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

A 40% increase in U.S. coal exports to 44 million tons of coal each year of the dirtiest form of fossil fuel is counter to the health and general welfare of the citizens of the United States and the world. Building this terminal would severely impact and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Rebecca Rishell

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Even though it is used as a political excuse for revitalizing dirty coal it is well known that the coal industry will not really put many coal miners back to work. Coal miners should be retrained for beneficial jobs such as replacing lead pipes in Flint Michigan and places like that.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

LARRY CRAIG Craig PORTER

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Necole d Cook

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"As a property owner in the Columbia River Gorge and "River User", I am opposed to Millennium Bulk Terminals' proposed coal export terminal for many reasons. I can not see the advantage of allowing such a toxic & dirty substance to be traveling throughout our amazing Gorge. Consider how this would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Please reject Millennium's application for Section 401 Water Quality Certification. Aside from all the negative local ramifications of this project, it represents dangerously backward thinking and is completely the wrong direction we need to go in terms of large scale energy development.

Sincerely,

Nick Hershenow
