William E Kinnison

I support Dirk Aaron's position that TCEQ begin scientific and public processes to evaluate and extend protections to the Edwards Aquifer into Bell County. Our water is being assaulted by development. Water in Texas is not unlimited. We need to protect it and especially the historic Edwards Aquifer. I am a resident of Salado and we are facing major water issues here as well as all over Bell County. Let's protect our precious Edwards Aquifer here in Bell Cty. Soon it will be too late.
