Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Oswaldo Ortiz

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

C C

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Diane Pomerance

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." Coal is an archaic fuel. It pollutes horribly and kills miners. It is a finite resource which is running out. Nature isn't making any more. Let's prepare for the future rather than the 1800s. You are staging us for a great comeback if 1890 ever returns. Other countries are preparing for the future with new sources for energy. This is a foolish ploy to convince a smal. Segment of the population that you are supporting them when in fact you are propping a dying industry that is killing them. Why would you want to provide energy for our competitors who undercut American industry by producing cheaper products? I thought you were all about made in America and bought in America. You talk out of both sides of your mouth. Do not pass this bill!

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Hilal Sala

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Evelyn Brewster

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' is a very bad idea at a time where millions of dollars are being spent to recover Columbia R salmon and improve water and air quuality. Th proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm recreation and tourism in the Columbia Gorge Scenic area and in local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality. Please make the sound decision for my children and their children's future health and well being. We do not need to be a third world country and sacrifice our future for the blind extraction of polluting resources. Thank you.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Patricia Desmond

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Please do not make Washington state one of the most destructive contributors to poor health for humans, the land and the wildlife. Washington state is known all over the world for its forward thinking work in alternative energy and its incredible beauty. Please do not let very short-term gain for very few of America's people rule what we do as responsible global citizens. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Lea Ogozelec

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Gail Lazar

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification. It's stupid shortsighted and harmful to all life on this planet to continue mining and burning coal. Invest in renewables instead.

Sincerely,

Shirley Harman Harman

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Beverly Kraut

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

India is the world's largest producer of coal and they have now initiated moves to switch to solar and wind technologies to provide for their future energy needs, China has now stopped it production of goods to be sold in the US, at any cost to their environment (And just when we really need all the fake rubber dog poop and those "toning" wands women seem to just not get enough of!) and China is switching towards solar and wind technologies for their future energy needs, only Trump and his pals see coal as anything but a filthy process and product, a product that ends up killing virtually everyone who ever works in a mine. He lies so openly, lies a fifth grade student could easily disprove and there is no country on Earth that respects him or what he stands for, enough of his madness!

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Bruce Blondin

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Janice Hartlieb

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." I do not want any more pollution added to my state. I can surely see a train wreck coming, damaging our environment , fish, wildlife, water sources for people, as we have seen happen in other states that had no regard for their lands and communities. None of us , or our environment needs to get sick over some big greedy company who only has their own profit in mind at our expense.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

As a resident of Washington state and a resident on this warming planet, I'm appalled at the proposed coal export terminal. It would reduce water quality in the Columbia River, and countless streams and rivers would be harmed by the coal trains. The pollution would also harm local communities, wildlife and Native people and exacerbate climate change. Please reject Millennium's application for Section 401 Water Quality Certification.

Sincerely,

Tiffany Alexander

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Emily Seay

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

No coal expansion in Washington State: the ecological health of all life on the planet depends on keeping coal in the ground. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

The Columbia River is an extremely important resource for so waterways, many local communities, wildlife and Native Americans. Coal is a dirty fuel of limited economic benefit. Yet, Millennium Bulk Terminals proposes a coal export terminal that would severely and negatively impact water quality in the Columbia River basin. Please reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Laura Jensen

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

I agree with the following assessment: "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." Beyond its immediate impact on Washington State, this terminal would damage the global climate and ecosystems throughout the world by promoting the use of coal. Of all fossil fuels, coal produces the most carbon dioxide, as well as toxic ash, acid rain, and radionuclides. Allowing the export of more coal would result in ecological damage wherever the coal is burned and ultimately throughout the world. The Department has a responsibility to consider this severe worldwide ecological impact in its decision, as well as the unacceptable ecological damage within Washington State itself.

Sincerely,

Dana Sawyer

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Brian Manning

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

I live in Vancouver, and this export terminal would make my city the ARMPIT of the Northwest. The future is with clean industries that provide jobs building renewable energy infrastructure, not a dirty wasteful return to the past. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Coal's day has passed, for us and for the world. Constructing the Millennium Bulk Terminal would not be good for our future or for the immediate health of the waterways, communities, and wildlife habitat impacted by both the coal trains and the greenhouse-gas emissions from the terminal. I may have a Massachusetts ZIP code, but I spent some time on Columbia River last fall and have seen the waterways and towns that would be affected. I've also seen the long trains that already travel both sides of the river. How much more can the area take? You must reject Millennium's application for Section 401 Water Quality Certification.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

John Seals

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." ADDITIONALLY, you are required by US Code to advocate for the best scenario for the tribal nations that might be impacted. This coal terminal fails on this, 100%. And our own governor has seen the statistics that prove 64 million more people are employed in the solar industry than ALL fossil fuels combined, and committed WA to abandoning fossil fuels entirely. It's time to step up to the plate, guys! ---If you need a pro bono consultation on the Native American laws involved, contact me to get case and code numbers (LL.M-Indigenous Law student) and then I can recommend the best attorney to advise you on this. I'm literally just up the street from you. --In the meantime, I'm going to contact Ferguson's office on this and also reach out to Senator Conway.

Sincerely,

Diana Schooling

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Vernell Smith

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Michael J Arighi

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Coal is dead. Literally. As a nation of coward thinking individuals who continue to seek the best solution for both local and global problems, we must reach for the better solutions with regard to how we acquire energy. Solar, wind and corn energies are our future, should we continue to survive as a species. Donald Trump and his selfish greed may not kill the Earth for me or my children's children.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Why are we even considering this? Generations of black-lung disease, pneumoconiosis, progressive massive fibrosis and similar respiratory diseases have established the toxicity of coal and its byproducts. A huge repertoire of coal-mine disaster folksongs testifies to the shorter-term, more dramatic dangers of mining coal. And most of the world, as it turns to cleaner forms of renewable energy, does not need and will not buy U.S.-sourced energy from coal and tar sands – the one form of petroleum-based energy that is even dirtier than coal. Given these factors, and the increasing rate (more than double) and severity (due to changes in mining equipment) of black lung and related diseases since the low point resulting from the Coal Mine Health and Safety Act of 1969, there is NO valid reason to reactivate the coal industry. IT makes far more sense to put that money and effort into clean, renewable energy sources – which have been the fastest-growing sector of the economy , last year growing 17 times as fast as the economy as a whole. Pneumoconiosis specialists at the Centers for Disease Control and the National Institute for Occupational Safety and Health had considered these diseases 'obsolete'– something you'd learn about in medical school but never see in practice. It's not too late to return to that situation. It's time, and past time, to recognize that the fossil fuel industry is as dead as the dinosaurs and other extinct life-forms that decomposed to form petroleum in the first place. The Millennium Bulk Terminal project, in particular, would destroy the water quality of the Columbia River and many other streams, and threaten the wildlife that depends on them – and with it, threaten the nature tourism industry so important to Washington State. It would also severely damage the Federally-guaranteed subsistence fishing rights of the First Nations peoples, to say nothing of being a gross affront to Native religious beliefs. As a former Washingtonian of Native descent, I am deeply disappointed that a state whose forests and mountains I've loved could consider such a short-sighted and self-destructive action. DO NOT grant this baseless certification.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Though I live in Arizona now, I have lived in the Pacific Northwest for many years and have enjoyed traveling around Washington and seeing sites from the Olympic Peninsula to Mt. St. Helens, to Lake Chelan to the Palouse. Coal is on the way out. It is not profitable to build more infrastructure for for coal and it pollutes all the communities through which it travels - whether by train, boat, or truck. Resist the temptation to sell out your long-term tourism and quality of life for short-term profits from a bit of coal. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."
