Re: Millennium Bulk Terminals Longview - Coal Export Terminal

I strongly encourage you to not support the Millennium Bulk Terminals. The reasons are simple: - Coal is the dirtiest form of energy we use. Burning coal causes 10 times more deaths per kilowatt hour than any other form of energy. - Coal kills people. In the US, 7500 Americans die every year from air pollution from burning coal. Overseas, it's even more. We have the ability to use other, better forms of energy now and that's what we should be investing in. - The coal industry does not pay for the true costs of their product. In the US, coal burning accounts for 10% of our health care costs. If externalities like health care and environmental damage were included in the price of coal, it would add 9 to 27 cents per kilowatt-hour. Coal has enjoyed a free ride for long enough. It is time to move beyond coal. We should no longer allow coal to diminish our health and environment. - This project does not make economic sense. The market for coal has been in decline, and is poised to continue in a downward direction. International markets like China are rapidly moving away from coal and toward renewable energy. In China they are abandoning partly-built coal power plants because they no longer want them. We should not be investing in new infrastructure for a dying industry. Instead, we should be looking ahead and investing in modern, renewable energy sources. - The realities of climate change are staring us in the face. The rest of the world is moving forward in earnest on reducing carbon emissions. This underscores the problem with building new infrastructure for a product no one wants. - Coal trains pass through my community every day. Their loads are uncovered, which allow coal dust into the air. I do not want to breathe coal dust. I do not want coal dust on my farm fields or in my streams. This is another example of how we pay the full price of coal in our health care and environmental degradation, while the industry enjoys their profits and offers no help to pay for the true burden of their product. - I would like to see no expansion in infrastructure for fossil fuels. It is past time to move away from these fuels. Instead, I support infrastructure for renewable energy, which is safe, clean, and perpetual. The transition to modern energy is underway. We must go boldly in that direction. We must stop willful pollution for the sake of profits than benefit very few, while the consequences are a burden to us all. Thank you for reading my comment. Please do not support the Millennium Terminals!

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Brian Emanuels

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." I grew up in Alabama and have seen the devastation that the coal industry has done to my once beautiful State. The town I went to elementary school in is now a "mountain top removed" area, accessible only through permits and wearing hard hats. Please do not allow this dying industry to destroy the beautiful State of Washington.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Please stop the coal depot on the Columbia River. How many communities do you need to sacrifice in order to save a dirty product that supports a very small group of coalminers? Save the coalminers by offering them and their children better lives than living in a dark shaft. Have you forgotten about black lung? Please be thoughtful about this damaging, dirty product!! Leslie Kruth

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." It's irresponsible of we as human beings to proliferate this wretched fuel source for the sake of ourselves and our future generations to come. If job displacement is an issue then default back to old programs that ACTUALLY worked such as the New Deal that got us out of The Great Depression. Similar principles can be applied in the realm of our current energy and climate change crisis in order to redirect people towards jobs that proliferate clean, renewable sources of energy rather than the current, massively negatively impacting ones (such as coal and other fossil fuels).

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Angelo Baracca

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Please reject the permit which would allow Millennium Bulk Terminals to construct a coal terminal on the shores of the Columbia River. This export facility would impact water quality and stimulate an industry which significantly contributes to the warming of the planet. Please don't approve this climate destroying project. Thank you

Sincerely,

Jon F Esty

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Brian Boies

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Katie Scalmato

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Maggie Yokum

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Sylvia Fanning

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

When I think of Washington state, I think of the beautiful countryside. Greenery and fresh crisp clean air. What I can't imagine is the filth and ecological destruction this terminal will cause. Our very own President does not care about your state. His only concern is money. He doesn't care what the cost. Please, I'm asking that you care more for your state, our country and the planet itself, than the dirty money this project will provide. For without the forementioned, the money wont matter anyway. Please do not be greedy. Have heart. In the long run, you will be rewarded. Have the courage to say NO to this project. I sincerely thank you. Deborah McDonald (R) "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

This coal bulk terminal would be accelerating in reverse. It is the last thing that this nation needs. The only thing the people involved in it care about is money. Not the environment, not wildlife, not the water, nothing but their own greed! It must not be approved, must not be built! When are they going to face reality instead of lining their pockets? We only have this one planet. Our atmosphere is warmer than ever. It must be stopped. For ALL our sakes. Mary Ramsay "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

The ridiculous Millennium Bulk Terminals' proposed coal export terminal does NOTHING to make AMERICA FIRST! Once again, America gets treated like a third-world nation where foreigners come in and strip our natural resources and export them to the rest of the world. As if that isn't bad enough, this "export terminal" and all it is associated with, will severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. Reject Millennium's application for Section 401 Water Quality Certification, and truly say "America First".

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

I contracted a rare Cancer disease while living in California and Washington State as a result of our intentions to provide our country with coal and its waste products. The disease has just made it to the RARE CANCER DISEASE LIST and I was one of the first 1400 people to have contracted this recurring, non-curable Cancer and carried it until 2003 when it was eventually diagnosed. I have had 3 surgeries to eradicate this recurring Cancer caused by this type of meddling with the country. I had million smile and it was taken from me due to the surgeries and now the teeth ramifications. To my dying day, my doctors, of which there are two top specialists in the United States that can work with this Cancer happen to be in Washington State and North Carolina. Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification, so this horrible Cancer is not spread to others in my situation. Please remember, this is a recurring Cancer that has NO CURE. I'm sure the big Pharmas love this But trust me, I do not. Reject this permit application and stop this dangerous and dirty project for good.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

As a resident of Washington State I abhor the idea of a coal terminal anywhere near our waterways and forests. As a human being living on planet Earth I cannot understand how anybody could still think that digging up and burning coal is acceptable. No amount of financial profit could possibly justify this. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." It is literally a matter of life and death for us, our children and grandchildren.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Joyce Czerwinskyj

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Cancel the "Millennium Bulk Terminals' coal-export terminal. Coal is anachronistic & you need to join the 21st century. It's been 85-to-90+ degrees in Manhattan & that's caused by your idiot coal. There's no such thing as 'clean coal'~~that's Trumpian propaganda. Leave our Columbia River water clean & its surrounding areas. People like to breathe...don't you? No 401 Water Quality Certification~~it would be a lie. Coal stinks & pollutes. People, air, water, animals...Just STOP IT!

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Mike Weiss

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

But even more harmful to the planet we share with other countries is the shipping of coal to our trading partners that this terminal would facilitate. We shouldn't encourage anyone to pollute, and with cheaper, cleaner alternative sources of energy available worldwide, we should encourage their development, not the use of coal.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Diana Dorantes

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

There is no way a coal terminal near a vital waterway should be getting a water quality certification. Coal is a threat to water in so many ways and the potential for accidents is too heavy for mitigation to be an acceptable reason to issue a permit. I am also a strong supporter of treaty rights and stand against this terminal and approval of a water quality permit because Washington's environmental study indicates effects from the terminal on tribal fishing can be enormous. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Steve Loxley

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Coal is an antiquated, inefficient and harmful source. We don't use whale oil any more and we shouldn't use coal. Please be a part of the future, not the past. We are smarter and better than that. Stop destroying public nature you short sighted greedy assholes. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Victoria McMullen

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

There was a time when coal was an important source of energy for a growing country. That time has passed. Science has shown that those who work in mines, those who handle it all along a route to a terminal, and those who live along those routes suffer huge medical afflictions. Please reject Millennium's application for section 402 Water Quality Certification.

Sincerely,

Rebecca Morehouse

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

DOES ANYBODY REALLY THINK THAT WE COULD ACTUALLY COMPETE WITH OTHER OFF-SHORE PRODUCERS OF THE FAILING FOSSIL FUEL OPTIONS BEING PRESENTED ? AND ESPECIALLY SINCE TRUMP'S TOTAL INSENSITIVITY TO CLEAN WATER, CLEAN AIR, AND THE INDECRIMINATELY CARELESS, UNEDUCATED WITHDRAWAL FROM THE PARIS CLIMATE AGREEMENT? OUR COAL FREIGHTERS WOULD BE TURNED AWAY FROM EVERY AVAILABLE PORT ON EARTH, ESPECIALLY FOR THE DIVISION CAUSED BY THE TRUMP ADMINISTRATIONS FAILED POLICIES, AND THE PRESENT FOREIGN COAL PRODUCTION AT A MUCH LOWER COST. THIS POLICY, AND FOSSIL FUELS ARE A DYING INDUSTRY, AND OTHER PROSPECTIVE BUYERS WANT NOTHING TO DO WITH AMERICA'S PRESENT BLOTUS IN ANY WAY, SHAPE, OR FORM ! THIS HAS BEEN RENDERED A USLESS AND POORLY THOUGHT OUT EFFORT TO COMPLETE AN UN-KEEP ABLE CAMPAIGN PROMISE MADE TO THE WILLFULLY IGNORANT AMERICAN PEOPLE ! KEEPING IN MIND THAT TRUMP QUASHED PENDING LEGISLATION THAT WOULD HAVE PROVIDED GOOD PAYING JOBS THROUGH THE VIRTUALLY FREE RE-TRAINING OF THE DESPERATELY POOR COAL MINING POPULATION THAT WOULD TRANSITION THEM INTO CLEAN, PROGRESSIVE, GREEN, ALTERNATIVE SUSTAINABLE, RENEWABLE ENERGY PROGRAMS AND TECHNOLOGIES, BUT TRUMP WOULDN'T LET THAT HAPPEN, BECAUSE IT WOULD BE JUST ONE MORE UN-FULLFILLED, CAMPAIGN PROMISE ! TELL ME-----WHO THE HELL DOES THAT ? "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

I love WA state, and I lived in Bellingham for a few years. You have a gorgeous coast line and rivers. Why ruin them!?!?! Please do all you can to reject Millennium Bulk Terminals' proposed coal export terminal!!! Surely you realize that it would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification.

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Cheri Guerdon

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." I live in southwestern Pennsylvania coal country, and previously worked as an air quality engineer for the state environmental regulatory agency. I have seen these coal loading facilities firsthand, and I can tell you they are a mess. We had tons of dust complaints from these types of sources. The air pollution from them is horrible! Don't allow this installation!

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Michael Emery

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Barbara Edwards

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Mr. Dana Kemp

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would choke the once-beautiful Columbia River water with filth. Countless streams and rivers would be harmed by Millennium's coal trains. People and animals like you and me would be wheezing, unable to draw a full breath without coughing and gasping, and poisoned by the water that keeps us alive. Our already unstable and increasingly dangerous climate would get even worse. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Please please please say no no no to the Millenium Bulk Terminals' proposal for Longview. Besides being ugly both physically and politically, it is certain to degrade the air and water for miles and miles. Reject the proposal. Please. In the name of common decency.

Sincerely,

Michael Jones

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Guila Muir
