Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Greg Sanchez

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Sherry Spendlove

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

We live on the Oregon side of the Columbia River (along with hundreds of other people), and very concerned about the transportation of coal: coal dust, and more trains that block the roads, so emergency services (ambulance and fire trucks) cannot get to the other side of town. Please protect us..the train accident in Mosier, Oregon was too close to those of us that live in The Dalles.....4 years ago a fire that started in Mosier came with in 500 feet of our home in The Dalles. Please don't add more trains to our area. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Laura Sanchez

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Miranda Hawks

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

LeRoy W

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." This 19th century technology is virtually obsolete in the 21st. Solar, wind and other renewables provide many more jobs and generate far less total pollution than oil and coal. That is not opinion; that is factual data. As a consequence, it is wholly unacceptable to impose coal terminals, mining or other filthy facilities on any environment or community. Invest your funds elsewhere, or lose them.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Diana Haynes

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

C C

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Sandra Bailey

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Jeffrey Bloomfield

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." The spread of toxic coal dust, the increase in green house gases both naturally will place a burden on clean air and promote not only the pollution but the illness along with it. This at a time when we are struggling to deal with health care in this country. We will never get there is we don't stop going back to the past and implementing known dangerous approaches that have NO FUTURE!

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification. Please, there is no greater threat to the entirety of humanity than climate change and it is imperative that our infrastructure, culture, and lifestyles keep up with the science. Fossil fuels served their purpose to initially advance civilization; however, they were never a sustainable resource in the first place and now that climate change is already upon us, it is time to continue to advance civilization by moving to clean energy sources that aren't going to devastate our future. All of the science and solutions already exist; now we just have to continue to implement them and lead the world in the right direction. Large companies like ExxonMobil do not like the clean direction that the world is now heading in, but ultimately it benefits them too since continuing to rely on their harmful product will only lead to total ruin. Thus, please, fight for what is just and help make the world a better and safer place to live."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Debbie Wilson

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

STOP polluting with the coal industry. There are things more important than MONEY. If you pollute and kill land, people, water--any natural resources you are so wrong!! And biblically wrong. It's sinning against God's creation. The Rev Julia Hart

Sincerely,

Julia Hart

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Maureen Southwick

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

In Tenn, we have learned of the massive destruction of land, rivers, fish and wildlife caused by coal dust, and the respiratory diseases suffered by workers. The damage isn't worth it for the community and only enriches those who are already wealthy. In a time of climate change, this just should not happen. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"The proposed coal export terminal - Millennium Bulk Terminals is not what we need in this country now and does nothing to benefit Washington state or the planet in general. Please don't allow a new terminal which would severely impact water quality in the Columbia River. Countless streams and rivers would be harmed by Millennium's coal trains and the terminal will also harm local communities, wildlife and Native people. These kinds of decisions exacerbate runaway climate change and majorly impact everyone in the world. Please reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Jr Hansen

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Karen Ann Abler

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Millennium Bulk Terminals' proposed coal export terminal would seriously degrade water quality in the Columbia River, and many other streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, including Native people, as well as wildlife, and it will worsen climate change, which promises to pose the greatest threat to national and global security in the decades to come. You must deny Millennium's application for Section 401 Water Quality Certification.

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." Help make better decisions for our country's future. Thank you.

Sincerely,

Kelsey Keyes

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Brendan schlaeger

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Kate Sims

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Coal is a fuel of the past. Natural gas and oil are superior, and this export terminal does nothing to fix our dependence on foreign fuels. In addition, this would result in needless adverse environmental impact on everywhere involved, as well as only lengthening the decline of the coal industry.

Sincerely,

Paul Cromer

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Tina Nielsen

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification. When countries all over the world are working to increase renewable energy, we are taking a step backwards, especially when believing that coal is the way to go. At least pick natural gas if you want to create new jobs. Scientific information is not to be taken as advice.

Sincerely,

Natalie Strom

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Joseph Rodriguez

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

The expectations,beside being over- optimistic, are not in consideration of the people and its current lifestyle. Are any of you fisherman in the Pacific Northwest? if you are, let me ask you how the fishing's been laterly. It only takes one small accident to ruin it all for a generation or more, even as bad as the fishing's been.. Think about it, not the proposed money and power. Your decision means millions for many, not just a few. One small accident...which you have to admit, is a statistical certainty..

Sincerely,

Robert M. Schneider

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Kurt Kiebler

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

JoAnn Alberts
