Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

John Hallanger

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Paula Rosner

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Beth Ann Buist

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

I believe that "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The project would spread toxic coal dust throughout communities in the Northwest, directly threatening the health of residents through toxic air and water pollution. The terminal, if built, would be one of the biggest greenhouse-gas emitters in the State of Washington. Public health would be severely at risk, and local communities (including Native tribes) and wildlife, would be adversely affected. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

George B Czerw

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Coal is a dying industry, and for good reason!! Its byproducts are destroying the earth and demand has never been lower. All resources should be used to establish renewables as the new norm. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Marlene Leone

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Our ecological heritage belongs to us all, not solely to corporations. We owe a debt to Native peoples to whom the land originally belongs, and to our children's grandchildren, who will inherit it. We must protect America's wild places, wildlife habitats, and waterways. We must not turn them over to destructive, polluting, old-energy corporations. Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

This is a very thoughtless and reckless attempt to grab a few dollars today for the greedy and leave an impossible mess for their children (and may I say our children too). The filthy use of coal is becoming clearer every day that it has been replaced by more clean and more efficient methods of creating or extracting energy. It would be a shame if Washington state destroyed or even put at risk, some of its most wonderful water resources for a failing business plan. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Jason Harpham

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." Trump's actions in regards to increasing coal mining simply serve to harm our standing in the world as a forward thinking and influential nation. Our competitive edge is declining as other nations step forward to lead green power technologies. Our voice at the global table is rapidly declining and we will lose our position as a global leader.

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Ken McKay

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Joseph Smigelski

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Sonja Cook

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Janet Rexroth

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Tom Webster

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. The harm of coal exporting includes the global damage that would occur from the use of the coal by its destination customers, which affects the earth's population as a whole, and which nearly every country worldwide is committed to reduction of. The population of the US and of the state of Washington care about the local environment quality as well as the future health of the planet and world population, even if Mr. Trump cares more about rewarding his personal contributors. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Global warming is terrifying. The consequences are not really being considered. We focus on slight temperature rise and rising sea-levels, but fail to consider the quality of the air that we will breath. Human cognition will deteriorate as CO2 levels increase, wars will increase, America's food production will tumble as the midwest becomes a dustbowl. Which means that exporting coal to be burned will hasten or add to that process. Our grandchildren will have vastly different lives by the end of the century. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, & countless streams & rivers would be degraded by Millennium's coal trains. The terminal will harm local communities, wildlife & Native people, & further exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification." 2014 was the hottest year worldwide on record. 2015 was the hottest year worldwide on record. 2016 was the hottest year worldwide on record. Do we think we can slow, stop, & then (belatedly) reverse this terrifying momentum of the acceleration of planetary atmospheric overheating ("global warming") due to our transforming the chemical composition of the atmosphere by our witless pouring into the air always increasing tonnage of carbon compounds, methane, & nitrous oxide all day every day everywhere in the world since the beginning of the industrial revolution around 1760? Can you imagine how much a ton of gas is? Washington Dept. of Ecology: This is not the moment in history to construct the largest & dirtiest coal export terminal in North America. I write as an emeritus member of the American Institute of Biological Sciences (AIBS). Reference: Naomi Oreskes & Erik Conway, /The Collapse of Western Civilization: A View from the Future/ (Columbia University Press, 2014).

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Margaret Herten

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Timothy W. Adams

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Theresa Murphy

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Bev Ohler

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Reviving the coal industry is a yuuuge mistake. That carbon needs to stay in the ground. If we bring up, someone will buy it and then burn it, only exacerbating our current problems. "Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Jo Barletta

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Kevin Olson

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Bill Spencer

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Janis A Grego

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

Now is not the time to increase fossil fuel usage, nor is it acceptable to pollute the Pacific Northwest in so doing. Renewable energy is already displacing coal-burning power; why make the world a worse place in order to chuck some profits to coal executives?

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Robert Fraser

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

A Ezratty

Re: Millennium Bulk Terminals Longview - Coal Export Terminal

"Millennium Bulk Terminals' proposed coal export terminal would severely impact water quality in the Columbia River, and countless streams and rivers would be harmed by Millennium's coal trains. The terminal will also harm local communities, wildlife and Native people and exacerbate runaway climate change. You must reject Millennium's application for Section 401 Water Quality Certification."

Sincerely,

Kevin Walsh
