

## Lovel Pratt

To the Department of Ecology:

I am a resident of San Juan County. My quality of life and that of my friends and neighbors and visitors and San Juan County's local economy rely on the health and well-being of the culturally significant and federally listed-as-endangered Southern Resident Killer Whales. I am concerned about the potential water quality impacts from the proposed Millennium Bulk Terminals coal export project on the health of the orca whales that spend time at the mouth of the Columbia River where they feed on upper Columbia and Snake River Chinook salmon (also listed as endangered). These salmon rely on clean rivers and streams for survival, therefore I am asking that you please deny Section 401 Water Quality Certification for this project.

Thank you,

Lovel Pratt
