

Gary Zender

Dear Washington Department of Ecology,

I am writing to ask you deny the application for Section 401 Water Quality form Bulk Terminals Longview LCC for the Millenium Bulk Terminals Longview Coal Export Terminal located at 4029 Industrial Way in Longview, Washington.

I appreciate the struggle that the people in Longview face with the scarcity of jobs in that area. I don't believe that using an outdated and environmentally dangerous means to address that shortage is the right way to do so.

Thank you for taking my comments into consideration.

Fr. Gary M. Zender
