

Lisa Dutton

I and my family, lifelong residents of Washington State, ardently oppose the Longview Coal terminal. Please take a stand against this kind of aggressive national policy-making. It is not in our interest, indeed not in any but the coal companies interest to fulfill China's rapacious and hunger for a deadly form of carbon heavy fuel. It is suicidal on an a global scale to ignore our own science and environmental reviews in order that corporations profit. We will fight it every inch of the way, and urge you to hear our pleas.

Think twice before selling out our region's well-being.

Thank you for your courage and foresight.

Lisa Dutton
