I oppose the spraying of Willapa Bay and Grays Harbor with any quantity of imidacloprid. Although the "no action" alternative is acceptable, the only really effective and protective alternative is restoration of the bays' ecology.

DO NOT DESTROY THIS DELICATE ECOSYSTEM. We've already destroyed the planet in 150 years since the industrial holocaust that took billions to evolve. **EDUCATE** yourselves as to the dangers of dumping millions of tons of poison on the earth. **AND DON'T DO ANYMORE.**
