Thank you,  
Amelia Apfel  
Puget Soundkeeper Alliance

Dear Department of Ecology,

Thank you for your thorough and careful evaluation of the need to designate Puget Sound as a No Discharge Zone. Puget Sound needs this designation to protect public health, sensitive habitat, and shellfish resources. I fully support Department of Ecology's determination and proposal to establish the Puget Sound No Discharge Zone.

Fortunately, over 97% of boaters already do the right thing, using holding tanks onboard to store sewage and disposing of the waste at one of the 100 pumpouts available throughout the region. The maritime community values Puget Sound and I am confident that the remaining vessels that don't have proper holding tanks onboard will step up to do their part to keep our waters clean.

As a resident of Puget Sound, I believe that the NDZ is a critical step to protect our waterways from degradation, recover endangered species and protect human health. Puget Sound bears the burden of pollution from many sources. No Discharge Zones across the country have been highly successful in protecting waterways. It's past time to grant the Sound this important and common-sense protection.

Again, thank you for your hard work. Please establish the Puget Sound No Discharge Zone.
