

Comments on the Draft 2019 SWMMWW		
Draft 2019 SWMMWW Section (select from drop down)	Comment	Comment Made By
(General Comment)	Currently it is difficult to extract individual BMP text from the manual because the text may start halfway down the page. Recommend modifying the e-format so each BMP is listed starting a new page or a link that opens the BMP individually into a new window, to allow for the ability to easily extract the pages for an individual BMP to be saved as individual document for communicating individual BMP requirements in a SWPPP or via email to a client.
