No

Does your county or city map Critical Aquifer Recharge Areas?

Yes

Please share any concerns or opinions about the Guidance revision - What would you like to see changed or added? To provide more detailed answers, please use this excel [spreadsheet](#).

Snohomish County, has a program in place as a part of the critical areas, however not all planning staff are familiar with it. Additionally, Water Utility Providers are often not part of the same agency the permit development so there is potential to not be informed of pending land use actions. Finally, many activities or changes in property use are not permitted, I am not aware of any proactive monitoring or enforcement.
