**Please indicate main role.**

Citizen

**Do you work in Eastern or Western Washington?**

Eastern Washington

**Is your work primarily in an urban or a rural area?**

Rural

**Are you interested in the guidance from a:**

County Perspective (county name)

Kittitas

**How familiar are you with the groundwater protection requirements of the Growth Management Act?**

Somewhat Familiar

**Does your county or city employ a hydrogeologist or other groundwater professional?**

Not sure

**Does your county or city map Critical Aquifer Recharge Areas?**

No

**Please share any concerns or opinions about the Guidance revision - What would you like to see changed or added? To provide more detailed answers, please use this excel [spreadsheet](#).**

Kittitas County is in the process of updating their CAO and Comprehensive Plans. CARAs are poorly mapped and public sentiment is that they should not be mapped or regulated, particularly within the irrigated agricultural areas. The County will need technical assistance from Ecology on CARA mapping and regulations as they update their plans, although they may not welcome the assistance.
