

Randi Thurston

The Washington Department of Fish and Wildlife (department) received your letter dated February 20, 2018, announcing review and comment period for the draft Water Treatment Plant General Permit. In response, Habitat and Fish Program staff were asked to review the revised permit. Our staff did not identify any fish and wildlife concerns.

Thank you for the opportunity to comment on the draft Water Treatment Plant General Permit. Please contact, Randi Thurston, with any questions or requests for additional information.
