

Charlie Maliszewski

To whom it may concern:

I would request that DOE include the following stipulations in the WRIA1 Rule Amendment:

- Retain the 500 gal per day use limit for family water consumption;
- Require metering to monitor use;
- Make Domestic Water Use Efficiency (Conservation) programs and projects the primary source of mitigation;
- Employ cost benefits analysis, funding availability and certainty of success criteria to rule out poorly conceived mitigation projects.

Thank you for your consideration.

Charlie Maliszewski
