

Ecology

This comment is for Section S6, Discharge to Impaired Waters. In S6.C.2., footnote #6, the Oakland Bay and Shelton Harbor sediment site (Cleanup Site ID 13007) should be included in the list of Puget Sound Sediment Cleanup Sites. The Shelton Harbor portion of the site is currently subject to a Toxics Cleanup Program Agreed Order for a remedial investigation, feasibility study, draft Cleanup Action Plan, and conduct of interim actions.

Also S6.2.b. makes reference to a requirement from paragraph S6.C.1.c - note that paragraph S6.C.1.c is no longer present as it has been stricken from the text of the permit.
