# Seatown

SEABAR & ROTISSERIE

Ecology Puget  
 Sound Nutrient General  
 Permit is too limited  
 in scope. Permit needs  
 to include upland  
 development standards  
 for stormwater runoff  
 as well as standards  
 to upgrade existing  
 stormwater outfalls.  
 This permit is not doing  
 enough and fails to  
 address large inputs of  
 nutrients everytime it
