

April Davis

Occidental needs to make Tacoma whole again. This is what the law would provide if, for example, Occidental were suing someone for libel or defamation or some other loss.

You don't make profits by polluting our shared world and then not take full responsibility for the cleanup. If your kids stole someone's money, would you ask them to only pay 41% of it back? Responsibility is not negotiable, and neither should the health of our beautiful Commencement Bay be. Please don't risk this treasure or our health with a partial solution that I'm sure the Occidental folks are willing to spend money lobbying for, instead of fully cleaning up their mess. I lived in Tacoma before any Superfund cleanups, and letting Occidental leave pollutants is a step backward.

Thanks for your consideration,
