

Robert Chesney

Ms. Graber -

I will be reviewing the available documents. Unfortunately Tacoma and our water ways have suffered far to much do to industrial pollution over the years.

However, my first concern when checking my mail today was this. "Why am I receiving two identical flyers, printed in full color on high quality paper, addressed to myself and 'occupant' from the Department of Ecology?"

After speaking with my neighbors they also stated they had also received two flyers. Did all of greater Tacoma receive two copies?

Doesn't this seem a little ironic? Coming from the Department of Ecology? Why not simply mass-mail to 'occupant'? Saving half the cost in supplies and postage that tax payers will ultimately pay for.

Respectfully -

Robert Chesney
