

Boise Cascade Wood Products, LLC

Please standardize the WA Dangerous Waste Rule Generator Category names (SQG, MQG, & LQG) to be consistent with the EPA Generator Category names. The speaker on the webinar stated that Washington's current Generator Categories "haven't resulted in violations", so you plan to keep them different. My company has facilities across the country and Washington's definition of Small Quantity Generator routinely creates confusion. We are forced to talk in terms of generation amounts (e.g.

Thanks for considering my comment.
