

Duane Carter

Well, it's a little bit of both. Cause we went through with Ecology and we worked collaboratively to fix and make sure these closure plans were good and this started in 2013 long before I came to DOE. That I'd just like to put on the record that Ecology has not been negotiating in good faith on these and now they want to go and change our closure plans. So, that's all just put it on the record right there.
