Mitigation plan goals and overarching principles

Cummins looks forward to assisting with the mitigation plan. We partner with Marine service businesses that are factory certified, trained, and experienced in repowering Marine vessels. The Cummins Marine Dealer network is capable and prepared to retrofit older vessels with the newest available technology. Several partners of note perform this work regularly, Tri-County Diesel, Hatton Marine, Tacoma Diesel.

Priorities

ok.

Mitigation fund allocations

Ok.

Disproportionately impacted communities

Ok.

General comments

Thank you for the opportunity.
