

Cummins Sales and Service

Mitigation plan goals and overarching principles

I just wanted to let you know that I am available to answer any questions that might come up about the Bus Market as you start to build your projects in 2018 to reduce emissions from mobile sources. 206-639-7277 is the best number to reach me at if you are going to be calling me.

General comments

Thank you for taking the lead on the use of the VW Settlement money, I can only imagine the hard work everyone there at the WDOE has and will be putting into this project.
