**Key Comments:**

Name/Company	Summarized Comment
Jack Field - WCFA	Washington Cattle Feeders Association - Requests information regarding budgetary drivers, General Fund appropriation, and funds received from EPA Region 10 to fund the registration program. Who dictates that the program be fee supported? Concerned that the PM10 calculations Ecology uses for feedlot operations are inaccurate. The dramatic fee increase will negatively impact new feedlot operations, TAPS are not currently in the proposal, but concerned they will be added later to the detriment of feedlots. Too much
