

Glen Anderson

HERE IS MY COMMENT on the Tacoma WestRock Steam Limit Project Notice of Construction.

I have lived in our region for 70 YEARS.

I am DEEPLY CONCERNED that climate disruption is SERIOUSLY HURTING our region and all of Planet Earth.

THE PROJECT WOULD SERIOUSLY HURT our region and worsen the damage that Planet Earth has been suffering for too long.

Other people can speak to the technical and scientific matters.

I IMPLORE YOU TO STOP THIS PROJECT!!!!!!!!!!!!!!
