Please clarify: Does the the following excerpt mean that motor vehicles (manufactured prior to the effective date) utilizing 134a in their air conditioners are allowed to be leased, rented or used....and the maintenance of the AC with 134a recharge by a certified technician (for refrigerant recovery) is allowed?

WAC 173-443-060 Prohibitions .."(2)Products and equipment manufactured prior to the applicable effective date of a prohibition in WAC 173-443-040 may be sold, leased, rented, or otherwise introduced into Washington commerce after the date of prohibition."
