

## Jean Hamilton

As a member of the Cornwall Beach Neighborhood Advisory team and as president of the Sehome Neighborhood I am so pleased to see this project moving forward . A great deal of careful thought has gone into ameliorating the harm that former generations did, mostly out of ignorance, by dumping sawmill waste and the community's solid wastes along a vulnerable shoreline.

If this project goes forward it will create a park that I predict will be at least as popular and well used as Boulevard Park. At last our children and grandchildren will be able to access the waterfront from Downtown. I could not be more pleased.
