Subject: Maury clean up
Date: Friday, April 6, 2018 8:21:13 PM

I have lived in Dockton for 27 years. I am dismayed by the proposed cleanup plan for the Dockton trains area. The plan to cap trails and discontinue others falls far from the mark. First there are no redundant trails call are used by runners bicyclists horses and walkers. Second capping will turn the trails into the eroded mud pits examples at the top of 260th. How about planting in areas where there is loose dirt? Almost all of the existing trails are well packed and the only time dangerous material will be released into the atmosphere is if you dig up these trails. Lise
