

Sally Wynchhoff

My family has owned property in Stevens county for over 100 years. We do not need acid rain from the plant. The forest are fragile enough in the area. This is not a good addition to the area which depends a lot on summer vacations and recreation. If Canada doesn't want it because of environmental issues why would Washington want it. NO on this plant. Amazon is coming to Spokane which will provide new and good jobs to the area.
