

## Wendy Beach

1. The proposed silicone smelter has created hard feelings between friends, families and neighbors. Who is responsible for the separation in the community and who and how will you fix it?
  2. What will happen to the honey bees? They are on the endangered species list. How will the smelter affect the honey bees? Will the acid rain from the smelter kill them off completely?
  3. What will happen to the frogs? Who will be responsible if they become extinct from our area? If the frogs become extinct that would create more bugs in the area. Who will be responsible for more insect in the area and how will they deal with the insect such as mosquito's that carry the West Nile Virus that kills horses?
  4. I want to know who will be responsible for the devastation the smelter will create on our wildlife?
  5. Who will be responsible if the soil is contaminated and we can no longer have organic gardens?
  6. What autoimmune diseases will the smelter cause to the area and who will be responsible for the health issues people will acquire from the smelter?
- 4.
