

## Michael Naylor

Our property is just yards away from the proposed site. Recently one of our neighbors just lost 250,000.00 in the sale of their home because of the smelter. Who is going to compensate the property owners for their property losses and moving expenses because of the smelter? Who is going to compensate us for our loss of our pursuit of happiness and dreams? How does the DOE put a value on a persons life, loss of happiness and dreams?
