

Rosemary Chandler

I have a concern with the proposed smelter in Newport. They said there would be trains being loaded and unloaded between 7am to 10 pm, I believe. Well, children go to bed long before 10pm to get enough sleep for healthy minds for school. To hear trains going by all hours would be detrimental to their health. As you know, those trains would be going by homes at ALL HOURS.. They didn't specify hours for the trains traveling to and departing from the yard. The noise from those trains and trucks will hinder our sleep habits. I want to know that the trains and trucks won't be going by homes from 7am to 7pm ! That means nothing leaves the yard, if after 7pm. and nothing leaves the coal or rock yards until 7am.

Thank you,
Rosemary Chandler
