

## Judy Bell

Wetlands are protected, and I'd the duty of th DOE to protect them. How will our wetlands that are all around the area of by the smelter.be protected?

How will flood lights effect the neighbors around PAC West, they will live next door.

Will the Citizens be taxed for the upkeep on the roads due to all the extra heavy traffic?

Who will pay for our homes and properties being devalued from the smelter?

Will PAC West pay for the burden on our infrastructure?

Will PAC West replace a rural lifestyle with urban industrialized toxic lifestyle?

PAC West has lied from the get go about the coal they will use, how will DOE keep track if they are violating regulations?

How will PAC West handle injuries at the plant? Will they have their own EMT's, and ambulance?

How will the DOE handle substantial increase in Carbon Monoxide and what kind of effect will this have on our health?
