

Leon Bell

We have many Lakes and camp grounds in our area. How will this smelter impact our camp grounds?

Who will be responsible if there is a derailment?

With increase truck traffic, how will this effect our school buses getting to and from school on time?

Will our children be able to play outside without risk of their health?

Will you be able to guarantee our rivers and fish will not be impacted due to the smelter?

We have a lot of farms in our area that raise livestock. Can you guarantee the livestock will not be effected by the smelter?

How will this smelter effect the values of our homes?

Will the pollution from this smelter cause the water in our rivers to become warmer?

How will this smelter effect the businesses in our rural town?

How many deaths will happen within this Community due to this smelter?

How will this smelter effect our tourism?
