

## Washington Rural Electric Cooperative Association

Hi Bill, Good presentation yesterday. I've taken a quick look at the draft reviewed during the webinar and saw a typo you probably want to correct. 173-441-124 (2) (a) (vii) – on page 160 – reads “If the importer identified under (f) of this subsection . . . “ which is the language picked up from 5126. To make it correct with notations in the draft, I believe it should read “If the importer identified under (vi) of this subsection . . . “ Please let me know if you have any questions. Kent Lopez
