

Jeanne Poirier

Certainly lots of work has been done to get this far. Incredible the amount of detail, regulations, legal, mathematical policies! Makes me glad I'm a retired, cranky old lady instead of being in the office of whoever has to read, understand and comply. As there is nothing natural about gas, it would be better to change all referrals of natural gas to fracked gas.

We could have had Washington Strong - instead we are Washington BP. Good luck!
