

Frank Marre

Dear Mr. Grice,

I want and future generations must see a substantial reduction in climate pollution, improved air quality, investments in clean transportation and clean energy. For the CCA to be transformative, it is critical that the proposed rule do the following:

CCA rules must maintain the integrity of the cap. The ultimate goal of this law is to achieve our greenhouse gas limits and improve air quality, especially in overburdened communities. Ensuring that emissions do not exceed the cap is critical. When designing program details, maintaining the cap should be one of the primary goals.

CCA investments must prioritize significant improvements in the air quality especially in overburdened communities.

CCA's implementation process must collaborate with the Environmental Justice (EJ) Council and with overburdened communities.

Thank you for considering my comments.

Sincerely, Frank Marre DO MS FAOCOPM
