

William Phipps

Please stop making gasoline powered cars and trucks.

Please stop driving gas powered cars and trucks.

Please stop all new natural gas powered furnaces installations in ALL new buildings.

Please give us citizens economic aid so as to purchase electric cars.

Please give economic aid so we can convert to electric heat pumps in our homes.

Thank you.

Why does this law only apply to 75 percent of carbon emitters.

?!

Please shut down the Whidbey Naval Air Station. It is un-needed. It is unwanted. Their awful planes use up a tremendous amount of aviation fuel, emit tons of carbon pollution and are a noise hazard and pollutant.

And those carbon spewing planes are not even counted under this bogus law.

Please slash the military budget by 50 percent and use those hundreds of billions of dollars to fund the necessary green energy transition!

Thank you.

Please do everything you can to hasten the green energy transition. We are running out of time.

Please do everything you can to slash our military budget.

The US military is the single largest consumer entity of petroleum products . It is simply un-sustainable..

We must change our geopolitical outlook on this planet.

Wars are a waste of time, energy resources and human lives.

Let's focus on helping eachother make this a livable sustainable planet for thousands of years to come.

Thank you.

William Phipps.

Edmonds, Wa.
