Subject: Approve the Advanced Clean Cars II (ACC II) Regulation

My husband and I are senior citizens susceptible to unhealthy air. As you know, given global warming, the air has been unhealthy in Olympia and other communities in our state. Many seniors like us fear going outside. Is this the legacy you are leaving to our state?

Please take the steps noted in this comment so that we can make some progress toward a healthier environment.

ACC II will help accelerate a quick, smooth and efficient transition to clean electric cars. By committing the state to a gasoline-free future, ACC II will help make affordable and economical EVs more available to all. It will save drivers billions of dollars on fuel and maintenance. It will diminish the air, water, and climate pollution that disproportionately impacts communities of color and low-income communities. We want 100% Clean Cars by 2030!
