

## Maurice L. Hooks, PhD, PE (retired)

My Vote is NO!!!!!! This is absolute Lunacy!

I had thought to provide a dissertation on the technical and economic faults with the proposal, however, after reading more of Inslee's statements, I understand the effort would be useless! As with Covid Lockdowns and Masking Diktats, this has nothing to do with Science, Engineering, Technology, or Climate! It has everything to do with Democrat Power and Authoritarian Control of America and Americans! This is nothing but a despicable display of Virtue Signaling to "buy votes" from the unconscious.
