Approve the Advanced Clean Cars II (ACC II) Regulation

ACC II will help accelerate a quick, smooth and efficient transition to clean electric cars. By committing the state to a gasoline-free future, ACC II will help make affordable and economical EVs more available to all. It will save drivers billions of dollars on fuel and maintenance. It will diminish the air, water, and climate pollution that disproportionately impacts communities of color and low-income communities. We need 100% clean cars as soon as possible. 2030 is a feasible target if we take it seriously--so let's take it seriously.
