

Bob Walker

Why can't we be our own state? Why follow the lead of a loser like newsom. He has let California go to the dogs. The crime is out of hand the forests burn every year due to the lack of at forestry program to deal with over growth. And diseased trees. There is no way we can stop the use of gas powered vehicles in the time he mentions. Wake up jay, be a leader yourself don't follow this fool. Or be voted out which would be the best for our state.
