

# Patrick Trythall

I do not agree and will not comply with any current or future mandates regulating what type of vehicle I buy or use as decided by political injunctions made in California, or any political faction, without evidential proof of viable and prosperous outcomes for THE PEOPLE.

California also made it against the law for doctors to speak out against politicians. Where is the science in that? Politicians are not doctors and regularly sellout to corporate interests.

<https://nypost.com/2022/10/10/california-makes-it-illegal-for-doctors-to-disagree-with-politicians/amp/>

We cannot have politicians deciding our fate without a full understanding of the implications/harms their choices could cause.

Do not support this initiative/proposal as it will harm every Washingtonian of their inalienable rights granted by God, and destroy prosperities American/Washingtonian civilians should instead enjoy.

You are not God, and never will be. You can be voted out, and the existence of EMV & DD5.5 will soon be destroyed BECAUSE OF BAD REGULATIONS AND POLICIES GOING AGAINST THE GRAIN OF WHAT IS BEST FOR AMERICANS.

We don't pay you to suppress us from prosperous lifestyles... but we do pay you to enhance it. So please, do your job or you will be voted out after November, if not in November.
