

Carol Gehl

I'm a mother who is angry about the lack of action on climate. I'm writing today from the Climate Action Now app to thank you for following California's lead and moving to ban the sale of new gas-only cars by 2035. After the Inflation Reduction Act, this pair of new ZEV mandates is easily the most significant climate win of the past few months. Not only will this policy move Washington to the cutting edge of sustainability, but it will be instrumental in accelerating the transition to electric vehicles nationwide. It's so rare that to climate action of this swiftness and scale that will truly make a difference. Thank you for taking this powerful step forward!
