

## Lynn Knapp

I am writing in reference to Chapter 173-423 WAC, Clean Vehicles Program. This must NOT pass. By mandating that every citizen in this state must purchase an EV after 2035 is the most ridiculously insane thing an Elected office can demand. Chapter 173-423 WAC, Clean Vehicles Program infringes on the rights of the people, it will also put thousands of people out of work across the country. In today's world, the middle-lower-class population will NOT be able to purchase a newer vehicle after the year 2035, people in this country are struggling to feed their families let alone pay their bills.

Chapter 173-423 WAC, Clean Vehicles Program will cause the middle & lower class much more financial pains if this passes, I urge you to stop this before it goes any further. It is bad enough that the entire states voting is based on 2 counties, King & Pierce, the rest of this state have no voice, so Please, be the voice of the middle-lower class people of this state, a state I was born in and am coming to dislike due to the current governor and how he is ruining it. If Chapter 173-423 WAC, Clean Vehicles Program passes, more & more people will move out of state, Please think of ALL the people here, not just the ones living in King & Pierce counties.
