Advanced Clean Cars II (ACC II) Regulation will help accelerate a quick, smooth and efficient transition to clean electric cars and this has to be a priority if we want our children and grandchildren to enjoy clean air. By committing Washington state to a gasoline-free future, ACC II will help make affordable and economical electric vehicles more available to all. (Currently only the wealthy can afford them.) It will save drivers billions of dollars on fuel and maintenance. It will diminish the air, water, and climate pollution that disproportionately impacts communities of color and low-income communities. Achieving 100% electric vehicles by 2035 is a realistic goal. Please lend your support toward making that happen.
