

Jeremie Countryman

If we wanted to fall under the Soviet Socialist State of California and their ever-regressive subjugation of their peasants, then we would move there. I recommend that we ride those that intend to implement Soviet Socialist State of California laws on the good citizens of the State of Washington out of the state on a rail. Ever since "Ambulance Chaser" Inslee came into office our state has become the toilet of Oregon and California. My vehicles and the vehicles that I service, and sale will only meet Federal Emission Standards only.
