

Sierra Club Washington State Chapter
180 Nickerson St # 202
Seattle, WA 98109

Dear Governor Inslee and Washington Department of Ecology,

Far too many of us are experiencing deadly heat waves, fires, floods, and other climate disasters. Far too many of us are breathing dirty, polluted air. The people who are the least responsible for creating this crisis continue to be the most harmed, including frontline communities, communities of color, and young people.

We know we can still act now to protect our climate and health by passing strong clean vehicle standards that will reduce vehicle emissions -- our most significant source of climate pollution -- and protect our air.

States across the country are adopting clean car standards, emission rules and fleet reporting requirements, so a strong regulation in Washington is essential to fighting the climate crisis and protecting our communities.

We are out of time for half measures. We must act this decade to protect our health and climate. Washington state must adopt a strong rule that will lead to more zero-emission vehicle sales, reduce toxic pollutants from heavy duty vehicles, and include appropriately-scaled reporting requirements for heavy duty vehicle fleets of 5 or more.

On behalf of the Washington State Chapter of the Sierra Club and the supportive residents undersigned, thank you for your leadership and for taking action.

A handwritten signature in black ink that reads "Jesse Piedfort". The signature is written in a cursive, slightly slanted style.

Jesse Piedfort
Director, Washington State Chapter
Sierra Club
